

FAN RAY AUN

for

OUTREACH OFFICER

Imagine yourself as a clueless secondary/pre-university student.. You want to go to a good University but you don't know which and you don't know how.. Welcome to Ray Aun's guide to CUMaS Outreach!

Imbued with hope, you check out the Outreach website . You are greeted with application steps, preparation tips and scholarship info!

Radio Podcast! You heard us on BFM, but you'll read/hear of us soon in Chinese and BM as well! No radio access? Download it! 😊

facebook You log on to Fb, and you search for CUMaS Outreach, you find a group of like-minded Malaysians and passionate Cantabrigians!

You can also attend 1 of at least 5 "MyUniLife@Cam" events! KL, JB, Sabah, Sarawak, Melaka. With a few secondary school visits!

But you have specific concerns. Submit to us a preliminary application (PS, predicted grades), and get an advice session. (Limited & Selective)

You can't have enough of the talks! A repository of alumni videos (Life after Cam) & (MyUniLife@Cam) for you to understand Cambridge better.

You have the info, you prepared yourself, but the interview will be scary! We prep you with mocks and tips!***

Fingers crossed, Pray for the rest! And hopefully you'll join us here.. It's the Best! 😊

*** Hopefully, we can establish a fund that subsidises the cost of travelling to an interview (for non-urban applicants)! For dire circumstances (ie. Applicant cannot fund their interview cost), CUMaS (in collaboration with OxBridge Malaysia) funds a select few based on an assessment of their capabilities (academic achievement and mock-interview review).
