Hi! As a welfare officer, I shall try my absolute best to make sure everyone is having a great time in Cambridge! Your welfare is my responsibility. I like to think I am a good listener. So if you have any problems you want to discuss about, I shall be your listening ear and (maybe) offer you some constructive advice. (Though please take them with a pinch of salt!)

I am actually also very keen about helping out and organising CUMaS Outreach Events. I strongly believe in making sure potential applicants understand what life in this university is like and to answer any questions they may have about studying here. So, in a way, one could say I am taking care of the welfare of potential students as well.

Even if I fail to become the welfare officer, I sincerely hope to be able to serve in the General Committee, especially in the welfare and outreach areas. I like watching people being happy!!!
