

# CUMaS 2017/2018

lhl26@cam.ac.uk

YOUR HOME IN CAMBRIDGE

Est. 1994

## Li Hong for President

I am a first year engineer from Homerton College. Having completed my education at both a normal government school and a private A-level college have opened my eyes to different perspectives. My transition to university will never be as easy without guidance and help from CUMaS members and committees, and life at Cambridge will not be as fun as of now without this great company of friends. Hence, I think it is an obligation to serve and contribute back to the club, and hopefully giving back to the society as well through CUMaS.

### Mission

To serve and make CUMaS a warmer home to recharge amidst our busy schedule, as well as a platform to add value to your profile and prepare for the challenges in the future.

Proposer: Nurfarhani Irfan (*St. John's College*)

Secunder: Lai Dee Loon (*Homerton College*)

Second Choice: General Committee

Should you have any enquiries, feel free to drop me a mail.

### Vision

The main vision is to build on and continuing what we have now at the same time creating more value for the members and the club. The key areas and ideas that I am going to work on are too long to elaborate fully hence summarized as follows,

#### Look within ourselves,

1. Better bonding between members of different generations and facilitate exchange of information
2. Increasing the marketability of our members
3. Improving the professional outlook and the administration of the club

#### Extending our view outside of Cambridge,

4. Collaboration with the University in Outreach events and widening participation
5. Providing more room for members to get involved and external relation
6. Sourcing for sponsorship
7. CUMaS Travel

### Why me?

I am **considerate, well-connected and aware of the sensitivities** of different cultures and religion, which make me a good listener and a great friend. I am **open to opinion and responsive** if help is needed. I had various **experience**, both as a leader and a team member. To name a few, I was the President of Chinese Cultural Club, Kolej Yayasan UEM and Vice President of St. John Ambulance, SMK Air Putih. I am very **passionate** about CUMaS and **involved** in almost every event in CUMaS. I have not commit myself to any position that demands high commitment so far, and CUMaS will definitely be the one I am going to **commit** to should I be elected.

Together, for the better.
