

# CHUEN LEIK LOW

**FOR**

# CORPORATE RELATIONS OFFICER

*My name is Chuen Leik and I'm a first-year Comp Sci. coming from KL and having just finished a gap year, I recognize the importance of clear & concise communication between a student body and corporate sponsors I believe I can contribute to the CUMaS as Corporate Relations Officer.*

## WHY?

As a **Comp. Sci.** I am in a suitable position to carry out the changes listed below and thus ensure they are effectively implemented. Also, I'm used to spending hours upon hours staring at my laptop screen so all the accompanying tasks (keeping up with lengthy email threads for one) should be familiar.

- **Current Communications Officer for the Jesus JCSU and thus have experience in meeting with senior members of an administration**
- **Extensive experience in public speaking from debates and events.**
- **Familiar with navigating the bureaucracy of large corporations.**
- **Charismatic and eager personality making me suitable to liaise with representatives from sponsors.**

## AND...?

**Expansion of corporate partners** – with more partners on board, we expand the ability and influence of CUMaS as an organisation to bring Malaysian students at Cambridge together. I would also make sure that we make full use of existing partnerships and encourage two-way cooperation.

**Greater opportunities with sponsors** – I'd advocate for greater opportunities with our sponsors to provide more opportunities for us both here in the UK and back at home. This ensures our close relationship with these reputed organisations don't go to waste.
