OBJECTIVES

sponsors

Working more closely with our sponsors is one of my main aims. Not only will this secure **funding** to support CUMaS projects, there is also a wealth of **career opportunities** available. Internships, connections and insight from industry experts are just some of the many benefits from partnering with our sponsors.

re-freshers

I would like to tap into the expertise of non-COVID era students to answer the burning question: what IS the **true Cambridge experience**? It will be a lovely way to meet seniors while giving "freshers" a taste of what we missed out on, **Malaysian-style**.

collaborations

What better way to keep age-old traditions alive than practicing them? **Culture swaps** in the form of mini workshops will further strengthen relationships between the international societies. From making **handicrafts** to folding **dumplings**, I believe this will be an enriching and hands-on approach to learning about different cultures.

outreach

I intend on **expanding** the outreach programs to more states and public schools, as well as offer comprehensive and accessible mentorship, interview and personal statement help. **Proofreading services** are straightforward to implement, require low commitment and look good on any CV.

events

Potlucks, picnics and parties are just a few ideas I have for varied and exciting socials. The RakyatRabu series was a huge success, and more definitely is to come. Introducing a **post-event feedback system** and **polls** will allow the committee to identify areas of improvement and gauge interest levels towards particular events. This is a surefire method to give the *rakyat* what they want!

SKILLS

• **Teamwork and leadership**

As the former Head of College and school Netball Captain, I am no stranger to working with others to achieve a common goal.

• **Event planning**

I have organised multiple events and socials in my previous school to raise funds for charity.

• **Communication**

I was the Chair of the College Committee and regularly met with student representatives. I always welcome constructive criticism!

• **Time Management**

Yes, I sometimes finish work 2 days before my deadlines. Thanks to natsci, I complete tasks quickly, efficiently and responsibly.

BONUS: Can and will cook you food if you are feeling down!!
