Seconder: Natasha Tan, 2nd Year, Economics, Pembroke

CLARISSA TEH

FOR TREASURER

2ND: WELFARE OFFICER

ABOUT ME

Heya! I'm a first year engineer at Gonville and Caius, and I love frisbee, my two doggos, k-dramas and discovering new places to eat. Although I can't take spicy food, I can assure you that my Malaysianess definitely shows through my money sense. My biggest financial achievement to date is finding RM32.10 on the floor at only 8 years old*.

EXPERIENCES

- **Race Logistics Manager for the 24 Hour Race KL 2018**; managed the operation, finances and suppliers for a student-led charity run that raised over RM300,000 to fight against modern slavery.
- **President of Student Council in High School**; organised and secured more funding for new events like a whole-school trip to Sunway Lagoon, social dance nights, a Christmas Carnival and movie nights.
- **Secretary General of Logistics & Finance for EosMUN 2018**

WHY ME?

1. Organised and Efficient

I was able to juggle the various responsibilities listed above all within the same time period, whilst completing the dreaded IB programme.

2. Committed and Persistent

When it comes to haggling and getting onto them swEET deAlS, I never back down. Have you ever managed to get £9 off your Kung Woo bill AND a free Fanta despite using only broken Chinese to communicate with the shop owner? Thought not.

3. Aptitude for Numbers

I'm no mathmo but engineering's a pretty decent shout.

GOALS AS A TREASURER

- To work closely with the Corporate Relations Officer and build relationships with local businesses to bring you that **taste of home at discounted prices**. Are you really going to say no to extra discounts for Granny Ma's bubble tea or the Thai food truck?
- To bring you an absolutely bomb **MFF and CNY Lunch** (especially for everyone who missed the chance to attend this year!)
- To roll out the LiT **CUMaS stash!** And to ensure that you can actually get stash that can be worn in Malaysian weather too.
- To ensure **transparent, organised and colour-coordinated** accounting. I am going to make the CUMaS financial statement look so pretty you'll want to frame it up on your wall.
- To keep **event prices as low as possible**.

*DISCLAIMER: I made sure to ask around to check if someone dropped it before taking it!
