Publicity Officer

I have learned how to run Adobe photoshop and make videos, and have a good sense of art. I am familiar with all the email systems and will send the CUMaSKini on time to remind all my Cumas friends about the current events. My mom is an architect so it will be convenient for me to print large-sized paper, but only the common plain paper. Will be passionate and influence others to join CUMAS events, a very important thing that I learned during the remote study, which is involvement.

Technical Officer

Since I have small experience in a computing firm maybe this could help, know some basic programming languages such as HTML, CSS, Python, C++, and Javascript. Will double-check the technical stuff a few days before, also come up with a back-up plan if necessary. Familiar with Google Form, Doc, Sheet, Slides, Sites, and App script which would be convenient.

Why apply for a role in CUMAS

1. Feel a sense of responsibility to contribute to this family-like society and increase collaboration and familiarity within the members.
2. Would like to publicize the outreach more and participate in the event too as personally did not receive too much support when applying, would do my part to increase the popularity of the outreach program, other than scholarships for well-deserved students, as I have many friends who are not as fortunate as me and I have plenty of scholarships experience.
3. Praise for myself: Personally a very diligent and humble person(always finish work 1 week before the deadline), really appreciate being able to teamwork with Cambridge people to learn valuable lessons.
4. Don't mind taking extra work from other positions but please accept if I say no if too busy, as it is always a pleasure to learn new things. So call me maybe!
