CUMaS has consistently been a source of hope and comfort for me, from inspiring me when I was still deciding whether to apply to Cambridge, to giving me some of the closest support systems I have now, 14 flight hours away from home. I hope to carry this forward by ensuring CUMaS continues to provide a diverse, encouraging environment for its members and Malaysians beyond.

## Efficient & United

- Strengthen committee welfare through birthday packs & better incentivisation
- Establish a systematic distribution of ad hoc tasks to ensure fairer workload and improve operational efficiency
- Create more mingling opportunities including official CUMaS family gatherings
- Introduce more informal engagements with lower commitment to improve engagement consistency

## A Cultural Hub for Malaysian Values

- Strengthen collaborations with Cambridge societies to broaden cultural exchange
- Organise events explicitly for non-Malaysians to showcase Malaysian hospitality
- Uphold cultural diversity through established festive celebrations

## Committed to Youth Development

- Continue decentralising and expanding JomBridge with a target to double previous participation in non-Klang Valley outreach events
- Partner with more A-Level colleges and organisations with regional networks to improve outreach efficiency
- Establish year-round engagement with aspiring applicants through established channels and clearer publicity content demystifying Cambridge
