

# Lok Yi Hang

## EXTERNAL OFFICER

- 1st Year Chemical Engineer at King's
- Proposer: Jeffry Yap, Corpus Christi
- Seconder: Wei Heng Wong, King's

### MOTIVATION

Coming from a small town in Kedah, I knew little about the path to Cambridge until I secured a scholarship after SPM. If this awareness had come earlier, I believe more Malaysian students would have been well-prepared to navigate the admission and join our CUMaS family. I hope our effort could potentially increase the number of Malaysians in Cambridge in the future.

### MY PLAN

#### PHYSICAL AND VIRTUAL OUTREACH

- Maintain and expand *outreach event*
- *Information sharing* for more secondary schools and colleges (national/private) (Life in Cambridge, application process, sponsorship)
- Collaborate with publicity to continue *CUMaS Instagram takeovers* (life sharing session + Q&A)

#### APPLICATION SUPPORT

- *Personal statement review* (with limit) and *mock interviews*
- Encourage more members to be involved (especially courses with high demand) to have the slots distributed more evenly
- Introduce mentor-mentee scheme for applicants to receive guidance from CUMaS members throughout applications (potential applicants will be selected by mentor)
- Push forward production of the *applicant handbook* for more completed information

#### CAM-BRIDGING FUND

- Collaborate with publicity to promote and *encourage the application* for the Cam-bridging fund
- Review applications, carry out interviews, and spot potential applicants (with agreement of all committees)
- Make sure the application fees do not discourage application to Cambridge
- More ATTEMPTS, more SUCCESSES!

### WHY ME

- Prefect and Chess Club President in secondary school
- Experience in sharing sessions regarding sponsorship (I applied to 10 scholarships and ended up being a JPA scholar)
- Tutors (A-level Math and Chemistry)
- Organised, collaborative and approachable
- Most importantly, I love Malaysia and I love CUMaS
